1 Facts and figures about BER

1.1 Overview

- IATA code: BER – also the new airport’s brand name
- Area: 1,470 hectares – the equivalent of approx. 2,000 football pitches
- Two take-off and landing runways: the existing take-off and landing runway at Schönefeld Airport has been extended from 3,000 to 3,600 metres and serves as BER’s northern runway. Another take-off and landing runway, 4,000 metres long and 60 metres wide, has been built in the southern area.
- Three terminals: Terminal 1 and Terminal 2 between the take-off and landing runways (midfield); Terminal 5 to the north. Terminals 3 and 4 will be planned and built according to passenger forecasts.
- Passenger boarding bridges: 25 at Terminal 1, two more at Terminal 5
- Aircraft parking positions: 85 midfield positions, 15 new positions under construction, 30 additional positions in the northern area (formerly Schönefeld Airport)
- Night flight regulations: the night flight regulations for Berlin Brandenburg Airport were officially confirmed by the Federal Administrative Court back in October 2011. Regular scheduled flights are excluded from the core night period from midnight to 5 am. Early arrivals and delayed starts as well as an officially stipulated quota of flights are possible at off-peak times between 10pm and midnight as well as from 5am to 6am.
- Public transport connections: connections to the suburban railway (S-Bahn) as well as to regional and long-distance transport via two stations (Terminals 1-2 and Terminal 5), numerous bus links to Berlin and the airport’s surrounding region. 14 trains per hour stop at the station directly below Terminal 1.
- Road links: a separate motorway entry/exit point on the A113 provides a direct and rapid connection to Berlin city centre, with the Berliner Ring A10 orbital motorway providing access to the broad catchment area.
- Airport City is located directly in front of the Berlin Brandenburg Airport’s terminal facilities. An urban service centre with a total floor area of around 148,000 square metres is being developed on the 16-hectare site.
1.2 Terminal 1 in figures

- Terminal and Pier areas:
  - 360,000 m² gross floor area
  - Access road over two levels, each measuring approx. 550 m in length

- Terminal building
  - Length: 220 m
  - Width: 180 m
  - Height: 32 m
  - 33,000 m² of glass façades
  - 160,000 m³ of concrete
  - 30,000 t of reinforced steel
  - 9,000 t of mild steel for steel structures

- Main Pier
  - Length: 715 m
  - 16 passenger boarding bridges

- North Pier
  - Length: 350 m
  - Twelve walk boarding positions

- South Pier
  - Length: 350 m
  - Nine passenger boarding bridges

- Pavilions
  - Located to the right and left of the terminal (North Pavilion, South Pavilion)
  - Eight security screening lines and twelve check-in desks in each
  - Length: 93.75 m
• Width: 37.50 m
• Height: 10.37 m

• Terminal Levels
  • Level U2 – railway, machinery, supply and disposal area
  • Level U1 – feeder level from the railway station to the terminal and Airport City, machinery
  • Level E0 – arrivals, including baggage reclaim and access road, bus gates
  • Level E0Z – intermediate floor for non-Schengen arrivals and transfer passengers
  • Level E1 – access road, departures, check-in, security screening, retail, cafés/restaurants and Schengen waiting rooms
  • Level E2 – non-Schengen waiting rooms, lounges, offices
  • Level E3 – machinery
  • Level E4 – observation deck

• Terminal 1 facilities
  • Ten check-in islands with a total of 118 desks, of which eight check-in islands are located in the main hall and one check-in island with twelve desks is located in both the North and South Pavilion.
  • 36 security screening lines for departures and an additional five for transfer passengers
  • Baggage reclaim hall with eight baggage reclaim carousels

• Terminal 1 capacity
  • Terminal 1 can handle up to 27 million passengers annually.

1.3 Terminal 2 in figures

• Terminal area
  • Total floor area: 23,000 m²

• Terminal building
  • Length: 240 m
• Width: 40 m
• Height: 15 m

• **Terminal levels**
  • Level E0 – check-in, retail, cafés/restaurants, arrivals, including baggage reclaim
  • Level E1 – security screening, retail, cafés/restaurants, passage to Terminal 1 (North Pier)

• **Terminal 2 facilities**
  • 16 check-in desks
  • 8 security screening lines on level E1
  • Baggage reclaim with three carousels

• **Terminal 2 capacity**
  • Terminal 2 is designed to handle 6 million passengers annually.

### 1.4 Terminal 5 in figures

• **Terminal area**
  • Total floor area: over 17,000 m²

• **Terminal building**
  • Five terminal areas: K, L, Q, M Departure, M Arrival

• **Terminal 5 facilities**
  • 47 check-in desks
  • Total of 15 security screening lines
  • Baggage reclaim with a total of eight carousels (five in area L, five in area M Arrival)

• **Terminal 5 capacity**
  • Terminal 5 provides sufficient capacity for 8–10 million passengers annually.
